TOUCH SCREEN BEDSIDE PANEL

TOUCH SCREEN BEDSIDE PANEL

INTRODUCTION

The LCD Touch Screen Bedside Panel is one of Elecon's innovative products. The user interface graphics and functionality can be fully customised to meet the customers requirements.

The LCD Panel interfaces directly to the Room Control Unit to provide very convenient and easy to use controls for the guest.

- Lighting controls
- Scene controls
- Thermostat and Climate controls
- Drapes & blinds controls
- Clock display & Alarm clock
- Service buttons: Privacy (DND) and Make-Up-Room (MUR)
- World time
- Low voltage 12vdc
- Multiple language support

The panel can also be programmed to switch to a dimmed 'stand-by' mode when not active, this screen can show either the hotel brand logo or the current time. A proximity sensor activates the screen when a hand is close to the device.

APPLICATION

The Elecon Touch Screen Bedside Panel is usually installed on the bedside table which provides convenience and easy access for the guests without the need to stretch for traditional wall mounted switches. The device can also be used more easily than traditional switches in the dark, as soon as the screen is pressed then the backlit display appears making function selection an easy task.
